

[Internship] Year field in Personal Information- Date of Birth section, doesn't accept Numerical Values.

Description: Year field, in Personal Information - Date of Birth section, does not accept Numeric values, doesn't offer a dropdown list of years. Instead throws “Numbers Only!” message.

Steps to Reproduce:

1. Open the Personal Information Form
2. Go to Date of Birth section
3. Click the Year field
4. Attempt to enter some Number

The Verdict- Actual Result: The Year field does not accept any input and throws a message “Numbers Only!” Instead of Accepting the Numerical input and preventing only the Non-Numerical input, or offering a dropdown list for Years selection.

Severity: Major

Environment: Window11, Laptop, Google Chrome

Expected result: The Year field should offer a dropdown list of years, accepting Numerical input and preventing only Non-Numerical characters.
